AUSTRALIAN AND NEW ZEALAND JOURNAL OF MEDICINE

(formerly Australasian Annals of Medicine)

published by

THE ROYAL AUSTRALASIAN COLLEGE OF PHYSICIANS

VOLUME 2, 1972, NUMBERS 1-4

EDITORIAL COMMITTEE

C. R. B. BLACKBURN (*Chairman*)
C. B. KERR (*Honorary Secretary*)
J. C. BIGGS, J. P. CHALMERS, K. D. G. EDWARDS, J. B. HICKIE, R. R. WINTON

NEW ZEALAND REPRESENTATIVE

J. D. SINCLAIR

PAPUA-NEW GUINEA REPRESENTATIVE

I. MADDOCKS

STATE REPRESENTATIVES

F. C. COURTICE, F. FENNER, I. MACKERRAS, H. M. WHYTE (*Australian Capital Territory*)
B. T. EMMERSON, E. SAINT, J. TYRER (*Queensland*)
J. A. BONNIN, D. J. DELLER (*South Australia*)
A. G. BAIKIE, P. DORNEY (*Tasmania*)
SIR MACFARLANE BURNET, BRYAN HUDSON, R. R. H. LOVELL, T. E. LOWE (*Victoria*)
A. K. COHEN, CYRIL FORTUNE (*Western Australia*)

Subject Index to Volume 2

Acanthocytosis, transient, and hypobetalipoproteinaemia, 397
Accreditation of programmes and posts for basic physician training: The Royal Australasian College of Physicians, 110
Acidosis, lactic: recovery associated with use of peritoneal dialysis, 389
Active chronic hepatitis in Australia with Australia antigen: results in 130 patients from three centres, 261
Acute disseminated intravascular coagulation in systemic lupus erythematosus, 182
Alpha$_1$-antitrypsin deficiency, pulmonary function in, 159
Alcoholic liver disease, associated with transient intravascular haemolysis and hyperlipidaemia, 39
Amantadine,
  and L-dopa, 294 combined with L-dopa in Parkinsonism, 252
Anaesthesia, cyclophosphamide and cholinesterase, 247
Anomalies of the small acrocentric chromosome in tumour cells, 188
Appetites, instinct and medicine, 203
Asthma,
  and the Brisbane climate, 235
  bronchial, and helminthic infestations in Singapore, lack of association between, 383
Association of erythrocytosis and lymphoma, 65
Atrioventricular block, complicating acute myocardial infarction, rate related, 13
Australia antigen
  (hepatitis-associated antigen), 278
  in active chronic hepatitis in Australia: results in 130 patients from three centres, 261
Australian aboriginal children with chronic diarrhoea, small-intestinal microflora, 215
Autoimmune
  diseases and multiple sclerosis, 256
  thyroiditis, Sjogren's syndrome and a lymphocytotoxic serum factor associated with coeliac disease, 405
Azathioprine and acute restrictive lung disease, 272
Azotaemic hyperparathyroidism, involvement of skin and subcutaneous tissue, 142

Biliary secretion with an intact enterohepatic circulation use of rhesus monkeys to study, 49
Blocking factors, immunological enhancement and tolerance to tumours, transplants and foetuses, 416
Bronchial asthma and helminthic infestations in Singapore, lack of association between, 383

Carcinoma of the liver, primary, regional hepatic blood flow studies by intrahepatic injection of ^{133}Xenon in normals and in patients with; with particular reference to the effect of hepatic artery ligation, 44
Cardiomyopathy, catecholamine with phaeochromocytoma successfully treated surgically, 402
Cardiovascular responses in diabetic dysautonomia, 1
Catecholamine cardiomyopathy with phaeochromocytoma successfully treated surgically, 402
Circulation, intact enterohepatic, use of rhesus monkeys to study biliary secretion with an, 49
Cholecystokinin and secretin, effect on gastric hypersecretion in a patient with the Zollinger-Ellison syndrome, 393
Cholinesterase, cyclophosphamide and anaesthesia, 247
Clinical synopsis, 134
Coagulation, acute disseminated intravascular, in systemic lupus erythematosus, 182
Coeliac disease associated with auto-immune thyroiditis, Sjogren's syndrome and a lymphocytotoxic serum factor, 405
Coeliac disease and other small-intestinal diseases; mucosal enzyme activity as a quantitative index of early functional improvement in the management of, 220
Colon, irritable syndrome; mebeverine, an effective agent in the, 34
Congenital malformations, some new thinking about, 78
Cyclophosphamide, cholinesterase and anaesthesia, 247
Cytomegalovirus, primary infection, and hepatitis in a renal allograft recipient, 148

Debrisoquine, tolerance and side effects during long term treatment of hypertension, 357
Diabetic dysautonomia, cardiovascular responses in, 1
Dialysis, peritoneal; recovery from lactic acidosis associated with use of, 389
Diarrhoea, chronic, in Australian aboriginal children; small-intestinal microflora, 215
Drug related liver disease, 422

Echocardiography in left atrial myxoma; relation to the findings in mitral stenosis, 124
Endocardial pacing in heart block due to acute myocardial infarction, 128
Effect of parapenzolate bromide (Relanol) on the gastric acid secretion of patients with peptic ulceration, 37
Enterohepatic circulation, intact, use of rhesus monkeys to study biliary secretion with an, 49
Erythrocytosis and lymphoma, the association of, 65

Fibrinolysis and haemostasis, 113
5-Fluorocytosine, kinetics of elimination in man, 153
Five possible causes of all nutrient deficiency: illustrated by deficiencies of vitamin B^{12} and folic acid, 69
Foetuses, tumours and transplants, immunological enhancement, blocking factors and tolerance to, 416
Folic acid and vitamin B^{12} deficiencies, five possible causes of all nutrient deficiency illustrated by, 69

Gastric
  acid secretion of patients with peptic ulceration, effect of parapensolate bromide (Relanol) on the 37
  acidity, assessment and appraisal of its clinical value, 83
  antrum, excluded, causing hypergastrinaemia: a proposed method for differentiation from the Zollinger-Ellison syndrome, 266
  hypersecretion, effect of cholecystokinin and secretin in a patient with the Zollinger-Ellison syndrome, 393
Haematological disorders, serum muramidase in; diagnostic value in neoplastic states, 28

Haemolysis,
transient intravascular, associated with alcoholic liver disease and hyperlipidaemia, 39
traumatic, after heart valve replacement: a comparison of haematological investigations, 118
Haemostasis and fibrinolysis, 113
Hashimoto's thyroiditis in a Chinese woman, coexisting with myasthenia gravis, 22
Heart block due to acute myocardial infarction, endocardial pacing in, 128
valve replacement followed by traumatic haemolysis: a comparison of haematological investigations, 118
Helminthic infestations and bronchial asthma in Singapore, lack of association between, 333
Hepatic
artery ligation, with particular reference to regional hepatic blood flow studies by intrahepatic injection of ^{133}Xenon in normals and patients with primary carcinoma of the liver, 44
blood flow, regional studies in normals and patients with primary carcinoma of the liver, by intrahepatic injection of ^{133}Xenon, particularly effect of hepatic artery ligation, 44
Hepatitis
and primary cytomegalovirus infection in a renal allograft recipient, 148
active chronic, with Australia antigen in Australia: results in 130 patients from three centres, 261
-associated antigen, Australia antigen, 278
Hypergastrinaemia due to an excluded gastric antrum: a proposed method for differentiation from the Zollinger-Ellison syndrome, 266
Hyperlipidaemia, associated with transient intravascular haemolysis and alcoholic liver disease, 39
Hyperparathyroidism, azotaemic, involvement of skin and subcutaneous tissue, 142
Hypertension
associated with a renin-secreting renal tumour, 178
tolerance and side effects during long term treatment with debrisoquine, 357
Hypertensive
Australian subjects, serum uric acid in normal and: from a continuing epidemiological survey on hypertension commenced in 1955, disease, ten-year prospective stiudy of modification in mortality pattern, 21
Hypobetalipoproteinaemia and transient acanthocytosis, 397

I^{131} treatment for thyrotoxicosis, and the long-acting thyroid stimulator, 168
Immunological enhancement, blocking factors and tolerance to tumours, transplants and foetuses,
Immunoglobulin levels in chronic lymphatic leukaemia clinical correlations with, 49
Intact enterohepatic circulation, use of rhesus monkeys to study biliary secretion with an, 49
Intrahepatic injection of ^{133}Xenon, regional hepatic blood flow studies by; in normals and in patients with primary carcinoma of the liver, with particular reference to the effect of hepatic artery ligation, 44
Intravascular
coagulation, acute disseminated, in systemic lupus erythematosus, 182
haemolysis, transient, associated with alcoholic liver disease and hyperlipidaemia, 39
Instinct, appetites and medicine, 203
Irritable colon syndrome, mebeverine, an effective agent in the, 34
Its all a matter of statistics, 296

Jaundice,
oxyphenisatin: report of two probable cases, one fatal, 386
and phenothiazines, 376

Kinetics of 5-Fluorocytosine elimination in man, 153

Lactic acidosis: recovery associated with use of peritoneal dialysis, 123
L-dopa
and amantadine, 294 combined in parkinsonism, 252
Left atrial myxoma, echocardiography in; relation to the findings in mitral stenosis, 124
Lesch-Nyhan syndrome,
report of three cases, 57
metabolic implications, 88
Leukaemia,
acute, qualitative platelet defects with reduced lifespan in, 346
chronic lymphatic, clinical correlations with immunoglobulin levels in, 346
Liver disease,
alcoholic, associated with transient intravascular haemolysis and hyperlipidaemia, 39
drug related, 422
Long-acting thyroid stimulator and the result of I^{131} treatment for thyrotoxicosis, 168
Lung,
disease, acute restrictive, and azathioprine, 272
function, regional, in patients with mitral stenosis, 228
studies in clinical medicine, 292
Lymphocytotoxic serum factor associated with autoimmune thyroiditis, Sjogren's syndrome and coeliac disease, 405
Lymphoma and erythrocytosis, the association of, 65

Malformations, congenital, some new thinking about, 78
Mebeverine, an effective agent in the irritable colon syndrome, 34
Mitral stenosis, regional lung function in patients with, 228
relation of echocardiography in left atrial myxoma to the findings in, 124
Modifications in mortality pattern of hypertensive disease (ten-year prospective study), 21
Mortality pattern of hypertensive disease, modifications, (ten-year prospective study), 21
Mucosal enzyme activity as a quantitative index of early functional improvement in the management of coeliac disease and other small-intestinal diseases, 220
Multiple sclerosis and autoimmune diseases, 256
Myasthenia gravis and Hashimoto's thyroiditis in a Chinese woman, coexistence of, 412
Myocardial infarction, acute, complicated by rate related atrioventricular block, 13
acute, endocardial pacing in heart block due to, 128
serum lipid abnormalities and other major risk factors in, 8

Neoplastic states, diagnostic value of serum muramidase in haematological disorders in, 28

Nutrient deficiency, five possible causes; illustrated by deficiencies of vitamin B12 and folic acid, 69

Oxyphenisatin jaundice: report of two probable cases, one fatal, 386

Parapenzolate bromide (Relanol), effect on the gastric acid secretion of patients with peptic ulceration, 37
Parkinsonism, combined L-dopa and amantadine in, 252
Peptic ulceration, effect of parapensolate bromide (Relanol) on the gastric acid secretion of patients with, 37
Peritoneal dialysis, recovery from lactic acidosis associated with use of, 389
pH, regulation in the body and in society, 173
Phaeochromocytoma with catecholamine cardiomyopathy successfully treated surgically, 402
Phenothiazines and jaundice, 376
Platelet defects, qualitative, with reduced life-span in acute leukaemia, 339
Proton, a parable of the, 213
Pulmonary function in apha$_1$-antitrypsin deficiency, 159

Qualitative platelet defects with reduced life-span in acute leukaemia, 339

Rate related atrioventricular block complicating acute myocardial infarction, 13
Regional hepatic blood flow studies by intrahepatic injection of ^{133}Xenon in normals and in patients with primary carcinoma of the liver, with particular reference to the effect of hepatic artery ligation, 44
Regulation of pH in the body and society, 173
Renal,
  allograft recipient, primary cytomegalovirus infection and hepatitis in, 148
  tumour, renin-secreting, associated with hypertension, 178
Renin-secreting renal tumour associated with hypertension, 178
Rhesus monkeys, use of, to study biliary secretion with an intact enterohepatic circulation, 49

Secretin and cholecystokinin, effect on gastric hypersecretion in a patient with the Zollinger-Ellison syndrome, 393
Serum lipid abnormalities and other major risk factors in myocardial infarction, 8
Serum muramidase in haematological disorders: diagnostic value in neoplastic states, 28
Serum uric acid in normal and hypertensive Australian subjects, 351
Sjogren's syndrome and a lymphocytotoxic serum factor associated with auto-immune thyroiditis and coeliac disease, 405
Skin and subcutaneous tissue in azotaemic hyperparathyroidism, involvement of, 142
Small acrocentric chromosome in tumour cells, anomalies of, 188
Small-intestinal diseases; mucosal enzyme activity as a quantitative index of early functional improvement in the management of coeliac disease and, 220
Small-intestinal microflora in Australian aboriginal children with chronic diarrhoea, 215
Some new thinking about congenital malformations, 78
Statistics, its all a matter of, 296
Systemic lupus erythematosus, acute disseminated intravascular coagulation in, 182

Thyroiditis, auto-immune, associated with Sjogren's syndrome, coeliac disease and a lymphocytotoxic serum factor, 405
  Hashimoto's and myasthenia gravis in a Chinese woman, 412
Thyrotoxicosis, the result of I^{131}treatment and the long-acting thyroid stimulator, 168
Thyrotrophin releasing hormone (TRH), synthetic, effect in man, 366
Transient intravascular haemolysis associated with alcoholic liver disease & hyperlipidaemia, 39
Transplants, tumours and foetuses, immunological enhancement, blocking factors and tolerance to, 416
Triple-steal syndrome, 275
Tumour cells, anomalies of the small acrocentric chromosome in, 188
Tumours, transplants and foetuses, immunological enhancement, blocking factors and tolerance to, 416

Use of rhesus monkeys to study biliary secretion with an intact enterohepatic circulation, 49

Vitamin B^{12} and folic acid deficiencies, five possible causes of all nutrient deficiency, illustrated by, 69

Zollinger-Ellison syndrome,
  a proposed method for differentiation from hypergastrinaemia due to an excluded gastric antrum, 266
  effect of cholecystokininand secretin on gastric hypersecretion in a patient with, 393
